

SEAN MORRIS

UX Designer | Accessibility Specialist

Seattle, WA | seanamor@uw.edu | [linkedin.com/in/sean-m-901897351](https://www.linkedin.com/in/sean-m-901897351) | morrisux.com

PROFESSIONAL SUMMARY

Accessibility-focused UX designer conducting accessibility testing for OneBusAway app at the University of Washington. Specializing in WCAG compliance, assistive technology testing, and creating inclusive digital experiences for all users.

SKILLS

UX/UI Design: Figma, Wireframing, Prototyping, Visual Design, User Flows, Design Systems

Research: User Interviews, Usability Testing, Persona Development, Journey Mapping

Accessibility: WCAG 2.1, Screen Readers (NVDA, JAWS, VoiceOver), ARIA, Color Contrast, Keyboard Navigation

Technical: HTML, CSS, JavaScript, Responsive Design, Git

PROFESSIONAL EXPERIENCE

Accessibility Tester - OneBusAway App

University of Washington | Seattle, WA

- Conduct comprehensive accessibility testing for OneBusAway mobile app, ensuring WCAG 2.1 AA compliance for transit riders with disabilities
- Perform usability testing with screen readers (NVDA, JAWS, VoiceOver) and assistive technologies to identify accessibility barriers
- Create detailed accessibility audit reports with prioritized recommendations for development teams
- Collaborate with designers and developers to implement accessible design patterns for inclusive user experiences

FEATURED PROJECT

KidCare Health Tracker

UX Research | UI Design | Prototyping | User Testing

- Designed mobile app helping parents track children's healthcare needs including vaccinations, appointments, and medical records
- Conducted user research with 6 parents, created personas and journey maps, developed high-fidelity prototypes in Figma
- Performed usability testing and iterated based on feedback, improving multi-child switching and adding milestone tracking
- Ensured WCAG 2.1 compliance with proper color contrast, keyboard navigation, and screen reader compatibility
